The mesquites have budded, the golfers are out, boats and jet skis are back on the water and, if it ever warms up and the wind quits blowing, summer will be here. Yeah!! Finally!! That also means our traffic is going to increase on the roads and water quickly over the next month or so. As this happens, each of us must pay attention to those rules and regs that promote safety for all members, their family and guests during these high usage periods. For example; every watercraft, golf cart and ATV inside the gate must have a current sticker, children between the ages of 13 and 16 must have a permit to operate golf carts and ATV's without an adult and all jet skiing, wake boarding, tubing, etc. must stop 30 minutes before sunset. These are just a few examples, but we encourage each of you to re-familiarize yourself with the current rules, which may be viewed and printed from our website. Hopefully, doing this will help all of us have an enjoyable summer, free from any accidents, issues or misunderstandings.

Meanwhile, the Board continues to make progress on the proposed Bylaws revisions. We hope to have that completed within the next few weeks and to set a date for a special meeting of the members to vote on the changes and revisions sometime this summer. More information will follow well in advance of that meeting.

Also, our website will be undergoing some upgrades that, at a minimum, will provide more space for documents and forms that members can access and print.

Next up, we will begin to look over the Rules and Regulations for any changes that need to be made as a result of the Bylaws revisions. The Board generally feels that, if a rule is in place, it should be enforced. If we can't or won't enforce it, then it should be removed from the books. Member input during this process is not just desired, but it is strongly encouraged. Please watch the agenda postings for information about when we will be having those discussions and join us for an opportunity to voice your opinions.

Regards,
Wales Madden

Village Notes

Boating Season will soon be in full swing. With the operation of watercraft on our small and frequently congested lake comes the responsibility to be safe, smart and follow the Texas and Lake Tanglewood boating rules. Following are a few of these rules (ref Code of Ordinances Sec. 8.01.011 and Texas Water Safety Act). The Code of Ordinances is available on the Lake Tanglewood Website.

1. Coast Guard approved **Personal Flotation Devices (PFD)** must be available for all occupants. Children under 13 years of age must wear a PFD. **Jet Ski operators and riders must wear a PFD.**
2. **Guests** may not operate a watercraft unless accompanied by a resident of the village.
3. All watercraft must have a current **Lake Tanglewood Registration** displayed on both sides of the boat.
4. Operators must be at least **13 years of age** or accompanied by a person at least 18 years of age.
5. Maintain **50 ft.** from all watercraft.
6. Operate in a **Counterclockwise Direction**, keeping the shore to the right.
7. **Must not cut across the lake** to jump waves from other boats.
8. **Jet ski operators must attach an engine cutoff safety lanyard.**
9. Observe all **No Wake Zones**. No towing of tubes in a No Wake Zone.
10. **Jet Ski Operating Hours** from 9:00 a.m. to one-half hour prior to sunset.
11. **No jet ski Splash Tag.**
12. It is unlawful to operate any aircraft to or from the waters of Lake Tanglewood.

The Lake Tanglewood Police Department will place a special emphasis on boating safety and boat registration. Violators will be ticketed.

Important Village Meeting, May 11 at 6:00PM in the Community Center. Although the agenda isn't complete, one topic will be **the future of Lake Tanglewood EMS**. Due to the potential community interest, we will hold this meeting in the Community Center.

As you are probably aware, our EMS (ambulance) and Fire Departments are staffed by volunteers. Because of the lengthy training and certification requirements, we have not been able to adequately staff our EMS. Additionally, Randall County contracted with BSA to provide 24/7 paid EMS service out of the DPS facility at the corner of Georgia and Hollywood Road. These factors resulted in a drastic reduction of responses by our EMS. At this meeting we will explore potential options (including eliminating EMS) to this challenge. We value your thoughts and suggestions.

Emergency Notifications (wild fires, severe weather, evacuation, etc.). In addition to television and radio, there are two other means we all should utilize to be alerted to an emergency. These are:

1. **Weather Radio.** Weather radios are inexpensive and provide a 24/7 alert to impending or actual emergencies. They are the primary (along with TV) local and national warning system. Weather radios can be purchased at Market Street and other United Supermarkets.
2. **Resolve to Be Ready Mass Notification** system is part of a Panhandle wide emergency notification system that can provide email, text or direct emergency messages. Additionally, the system provides the Lake Tanglewood mayor and Emergency Management Coordinator the ability to generate local emergency messages. The system is free to our residents. To register, log on to www.R2Beready.com, click the Residents section and follow the instructions.

George F. Moore, Mayor
